PROFESSIONAL SUMMARY

Full Stack Developer with 8+ years of experience building web and mobile applications, mainly with Vue.js (6+ years), Node.js and cross-platform frameworks (Ionic, Xamarin/MAUI). Experienced in migrating legacy projects to Vue 3 and PWA architectures, and recently integrating LLM APIs into automation workflows. Currently pursuing an MSc in Computer Engineering (Big Data & Machine Learning) at Università Telematica Uninettuno. Interested in health-tech and continuous learning.

WORK EXPERIENCE

SORINT.lab — Frontend Developer

May 2023 – Present

Italy (Remote)

- Developed accessible web platforms with **Vue.js 3** and **Vuetify**.
- Led the migration of 3+ legacy projects from Vue 2 to Vue 3, reducing bundle size and improving Lighthouse performance scores.
- Built modular backend APIs with **Node.js** and **Fastify**.
- Designed and integrated automation workflows with **n8n** and LLM APIs (OpenAI, Anthropic, Gemini), reducing manual data-processing effort.
- Maintained code quality through unit testing with Jest and CI/CD pipelines.

Gesan Srl — Software Developer

Oct 2018 – May 2023

Caserta, Italy

- Led end-to-end architecture, design and development of **Campania in Salute**, a public healthcare app for the Campania region used by citizens to manage medical records, appointments and reports.
- Designed secure RESTful APIs, offline-first PWA functionality and the full UI/UX of the application.
- Built cross-platform mobile apps with **Xamarin Forms (C#)** and **Ionic + Vue**.
- Developed desktop software with Electron.js, WPF and UWP.
- Worked in Agile teams: sprint planning, code reviews and continuous delivery.

AK12 Srl — Software Developer Intern

Apr 2017 – Oct 2018

Caserta, Italy

- Helped develop internal web tools with JavaScript and C#.
- Gained foundational experience with Git, debugging and UI development.

EDUCATION

Università Telematica Uninettuno | MSc Computer Engineering — Big Data & ML

Oct 2024 – Present

Università Mercatorum | BSc Computer Engineering

Jan 2021 – Jun 2022

Università degli Studi di Napoli Federico II | BSc Computer Engineering (transferred)

Jan 2019 – Sep 2021

ITIS Enrico Medi | Diploma in Computer Science

2009 – 2014

TECHNICAL SKILLS

Frontend: Vue.js (6+ yrs), Vuetify, Ionic, TypeScript, JavaScript, PWA, HTML5, CSS3

Backend: Node.js, Fastify, Flask, RESTful APIs, SQL, Docker

Mobile: Xamarin Forms, Ionic, .NET MAUI

Testing & DevOps: Jest, CI/CD, GitHub Actions, Docker, Git

Automation & AI (learning): n8n, OpenAI / Anthropic / Gemini APIs

Tools: Postman, Swagger, VS Code, Azure, GitHub

PROJECTS

Campania in Salute — regional healthcare PWA: full-stack development of a public platform for health records, appointments and medical reports.

LLM Agent for EHR Querying (MSc thesis, proof of concept) — agent that answers clinical questions on a simulated health record, choosing between FHIR API queries and semantic search (RAG) via tool calling. TypeScript, LangGraph, Gemini, ChromaDB. github.com/FabriGinseng/progetto-tesi

CERTIFICATIONS & COURSES

Unit Testing for TypeScript & Node.js with Jest • User Experience Design Fundamentals • C# Fundamentals • ECDL Web Editing
